The ROLLER is a lighting system, with the full flexibility of installation. A black minimalistic box could contain one or two heads. These ROLLER modules can remain encapsulated in the ceiling, or emerge in its entirety and be tilted 90° while rotate 355°, allowing focused illumination in one swift move. The black background inside the cove creates an illusion of unendingness around the light spots, enforcing the fully integrated architectural lighting concept. A range of light refining accessories are available to guarantee optimal optic performance and maximum eye comfort.
